

WE'VE GOT IT DOWN TO AN EXACT SCIENCE

Whether our customers need rapid turnaround on a project or a consultative, long-term program partnership, we offer unparalleled service from our industry leaders and skilled scientists.

Fast Facts

Founded:

Established in 1991 as Albany Molecular Research, Inc. ("AMRI")

Employees:

Approximately 3,100 worldwide

Global reach:

27 locations worldwide across nine countries

Client base:

1,500+ clients across three continents

2016 Revenue:

\$570M

Our Services

DISCOVERY

Comprehensive discovery biology, synthetic and medicinal chemistry, ADMET and bioanalytical services

DEVELOPMENT

Chemical process R&D and continuous flow, manufacturing of non-GMP and GMP intermediates and clinical-stage APIs, biotransformations, enzymatic reactions, preformulation/formulation and material science

ANALYTICAL AND SOLID STATE SERVICES

Method development and validation, stability testing, quality control and spectroscopy services, particle engineering, material science, container qualification and testing, packaging and distribution testing, medical device and drug delivery testing, extractables/leachables and impurities detection, and microbiology

API MANUFACTURING

Chemical development and cGMP manufacture of complex APIs, including potent and cytotoxic compounds, sterile APIs, steroids and controlled substances

DRUG PRODUCT

Integrated sterile dosage form expertise, including complex liquid and lyophilized formulation development, scale-up and cGMP supply

Our Values

Do What's Right – At every level of the organization, we uphold strong moral principles, treat others with respect and demonstrate high integrity and ethics.

People Powered – We are a diverse, global team of self-starters who are constantly learning, fully accountable and empowered to make a difference every day.

Positive Partnerships – We are 100 percent focused on meeting the needs of our internal and external partners. When our partners succeed, we win too.

Excellence Is Everything – For our customers and our colleagues, the caliber of our work individually and as an organization is critical. We always aim for excellence.

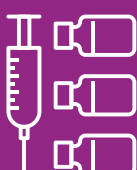

The Collective Good – From our professional collaborations to volunteer projects in our communities, we are committed to helping and always looking at the bigger picture.

Complex Science. Expert Solutions.

Key Figures

 <p>Discovery</p>	<ul style="list-style-type: none"> • >200 drug discovery programs • 3 sites, including one for integrated drug discovery in the United States • >85 preclinical and clinical candidates • >240 issued patents and dozens of additional filings • >500 peer-reviewed publications • >400 verbal presentations and posters
 <p>API Manufacturing</p>	<ul style="list-style-type: none"> • >230 commercial products • 11 multipurpose facilities • Specialist in a variety of niche technologies
 <p>Drug Product</p>	<ul style="list-style-type: none"> • >27 commercial products • 4 sites supporting end-to-end sterile drug dosage from development manufacturing

Company Highlights and Awards

Top 10	CDMO supplier
2018	CMO Leadership Awards in capabilities, compatibility, expertise, quality, reliability and service
2017	CMO Leadership Awards in capabilities, compatibility, expertise, quality and reliability
2017	CMO Leadership Awards from Life Science Leader in quality and productivity categories for third time
2017	CMO Leadership Award in reliability category for fourth time; and also in capabilities, compatibility and expertise
2016	AMRI acquires Prime European Therapeutics S.p.A., also known as "Euticals" in Lodi, Italy
2015	AMRI acquires Gadea Pharmaceutical Group in Valladolid, Spain
2014	AMRI acquires Oso Biopharmaceuticals Manufacturing, LLC ("OsoBio")
2014	AMRI acquires Cedarburg Pharmaceuticals, Inc.
2013	Lilly Global Supplier Award
2012	Silver Shield Award from Abbott Health Care Pvt. Ltd.

AMRI, a global contract research and manufacturing organization, partners with pharmaceutical and biotechnology industries to improve patient outcomes and quality of life. With locations in North America, Europe and Asia, AMRI's team combines scientific expertise and market-leading technology to provide a complete suite of solutions in Discovery, Development, Analytical and Solid State Services, API Manufacturing and Drug Product.
